

Aluminium tread

Punched steel tread

EN131 part 7 compliant

KM608967

### Information

When specifying the correct size the optimum operator working height is 1.5m above the platform height.

Choice of durable aluminium or punched steel treads

### Heavy duty warehouse steps

- Heavy duty tubular steel.
- Extra wide 560mm treads.
- Platform W X D: 560 X 400mm.
- Hand-lock anchorage - feet rest firmly on the floor.
- Outboard axle wheels for increased stability.
- 100mm toe board.
- Caution notice warns of safe operational procedure.
- EN131-7 compliant, 150kg load capacity.
- Tool trays, baskets, access gates available to special order.
- UK manufactured.

| No. of treads | Platform height mm | Overall dimensions H x W x D mm | Punched steel treads |           |              | Aluminium treads |           |              |
|---------------|--------------------|---------------------------------|----------------------|-----------|--------------|------------------|-----------|--------------|
