J Telescopic window cleaning poles

- Lightweight aluminium pole system allows you to build the length you want up to 33 feet.
- It is the only modular system that allows you to add or remove sections to work at your desired height. • Full range of tools available.

Information

Working at height regulations have the primary objective of eliminating, or making work at height safer. Duties are placed on employees and the self employed to put in place arrangements for: eliminating or minimising risks from work at height, organising and planning work at height and selecting suitable work equipment to perform work at height.
