G Unger telescopic window cleaning pole

- Lightweight aluminium pole system allows you to build the length you want up to 33 feet.
- It is the only modular system that allows you to add or remove sections to work at your desired height.
- Full range of tools available.

Information

Working at height regulations have the primary objective of making work at height safer. Duties are placed on employers and the self employed to make arrangements for minimising risks from work at height, including organising and planning work at height and selecting suitable work equipment.
