

© Slingsby COSHH Hazardous substance cabinets

- Robust metal cabinets designed for the safe storage and segregation of hazardous substances and to minimise the risks and damage from spillages.
- Durable 0.9mm thick steel body. • Supplied with shelves which are perforated to allow for any spillage to drain into the liquid tight sump tray. • Removable spillage sump tray to be positioned centrally in the base of the cupboard, to match the drainage holes from the shelves above.
- Shelves are height adjustable. • Cabinet comes with 3 GHS labels and 2 keys. • Fitted with a 3 point lock square flush handle. • Powder coated paint finish, high visibility yellow. • Conforms to COSHH guidelines, Health & Safety Executive Guide and DSEAR 2002.
