

D Movexx powered hospital bed mover

- Effortlessly move patient beds up to 450kg, safely and quietly.
- Attaches to most beds using claws that grab the bed posts.
- Powerful 25.6V 700W motor.
- Plug-in 25.6V 40Ah LifePo4 battery pack included - more charge cycles, longer life, and safer than standard Li-Ion batteries (no thermal run-away).
- External 10A charger included - fully charges the battery in under 4h.
- Detachable joystick controlled steering - can be positioned at the end of the bed using the extendible coiled cable.
- Max. speed (loaded): 4.5km/h (fwd/rev).
- On a Ø150mm non-marking solid rubber drive wheel, and Ø75mm swivel PU wheels.
- Optional ride-on platform attachment.
- N.B. It is recommended that this item is stored indoors in a dry secure area to optimise its lifetime use.
- For UK sale only.
