D Spring actuated self-levelling pallet turntable

- Capacity 2000kg.
- Spring actuated turntable, which keeps palletised loads at an optimal working height, using a system of calibrated springs and shock absorbers.
- No power source or compressed air required.
- Lowers the risk of fatigue and injury.
- Reduces the time taken for loading and unloading pallets by over 40%.
- Fitted with fork pockets for easy relocation.
- Smooth running ball bearing turntable, which eliminates the need to walk around or stretch over the unit.
- Height 240mm (compressed), 710mm (extended).
- Turntable dia. 1100mm.
- Weight: 160kg.
- CE marked.

Up to
2000KG
