

Slingsby powered Go-Far platform trucks

- Easy to operate, variable forward/reverse drive.
- Non-marking buffer and load wheels.
- Safety features include Deadman brake, and 'anti-pinning' which automatically stops the truck if accidentally reversed into the operator's body.
- Full charge provides a working day's use under normal conditions.
- Quiet 24V DC system. • Capacity 450kg UDL. • Easy to clean slip resistant plastic deck (zinc plated steel on 425068DX8 & 426497DX8).
- Deck height 345mm. • Overall height: 1030mm (429800DX8 is 1275mm) • Complies with 2004/108/EC and 2006/42/EC (as amended). • 429800DX8 features hinged lockable side gates and half hinged lid. • Optional weather proof polyester-coated tiller cover, with clear PVC panel for a full view of the electronic display and controls, elasticated cuffs to keep hands warm and dry, and taped seams.

Go-Far with single handle
