

A Metal safety rail system

- Modular system of cast iron clamps and galvanised steel tubing. • Comply with the UK's Health and Safety Regulations, CDM Regulations and Building Regulations.
- Clamps are free from sharp edges with a galvanised finish and are available in four sizes.
- Tubing is manufactured to BS 1387, supplied in 3.2 metre lengths and available in 4 different diameter sizes. • Simple and quick to design and install. • Safe construction with high load capacity, can be taken apart at any time. • Self assembly required.

Tubing

- Galvanised steel.
- Length - 3.2m.

Code	Overall Dia. of Tube mm	Thickness (gauge)	Clamp Type	Price £ per 3.2m length
316828DX8	27	12	A	45.99
316829DX8	34	10	B	59.49
316830DX8	43	10	C	75.99
316831DX8	48	10	D	99.00

Clamp Fittings

Description	Type A		Type B		Type C		Type D	
	Code	Price £ each	Code	Price £ each	Code	Price £ each	Code	Price £ each

2-Way Cross with Centre Vertical Tube	319236DX8	13.99	319237DX8	14.99	319238DX8	18.49	319239DX8	23.49
Adjustable Angle Cross (30° to 45°)			319240DX8	44.49	319241DX8	52.49	319242DX8	61.49
3-Way Cross with Centre Vertical Tube	319243DX8	19.99	319244DX8	20.49	319245DX8	29.99	319246DX8	31.49
4-Way Cross with Centre Vertical Tube	319247DX8	23.99	319248DX8	27.99	319249DX8	40.49	319250DX8	44.49
90° Cross Over	319251DX8	10.49	319252DX8	10.99	319253DX8	14.99	319254DX8	17.99

N.B. Other types of clamps are available on request - please enquire.

Information

i

First decide on the diameter of tube you require, selecting A, B, C or D. You can then begin selecting the correct clamp fittings. Tubing supplied is plain galvanised steel, colour coated steel tubing is available on request.

Can be used for many applications

Standard wall/floor plate

Base plate

Face fixed base plate, vertical fixing

Face fixed base plate, horizontal fixing

Upright pivot (0° to 11°)

Side fixed wall bracket

Plastic end plug

Middle rail pivot (0° to 11°)

Top rail pivot (0° to 11°)

End joining pivot (0° to 11°)

Pivot centre vertical tube (0° to 11°)

Simple tee

External straight connector

90° Elbow

90° 3-Way elbow

Corner with through centre tube

Long tee, 3 sockets

2-Way cross with centre vertical tube

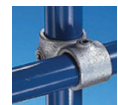

Adjustable angle cross (30° to 45°)

3-Way cross with centre vertical tube

4-Way cross with centre vertical tube

90° Cross over
