

Starter bay

Add on bay

A Heavy duty bolted cantilever racking

- Starter units easily extendible with add on bays. • Robust design with cross bracing between uprights. • Curved bases to prevent tyre damage.
- Bolted arms for strength. • All uprights 2000 mm high. • Two unit widths available 900 mm and 1500 mm. • 2 arm lengths available up to 1200 mm long. • Single sided starter bays have 3 arms per column - 6 in total. • Double sided starter bays have 6 arms per column - 12 in total.
- Single sided add on bay has 3 arms per column. • Double sided add on bay has 6 arms per column.
