## KEY FEATURES TO LOOK FOR WHEN BUYING CHAIRS.

Look out for the relevant chair icons over the following pages.

### 1 Seat Height Adjustment

Chair height can be raised or lowered to your required height to prevent muscle fatigue and numbness.

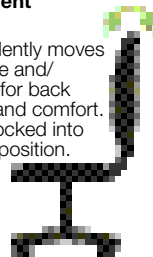

### 2 Back Height Adjustment

Back adjusts up and down to provide additional back and neck support.

### 3 Backrest Adjustment

Backrest independently moves with angle and/or depth for back support and comfort. Can be locked into required position.

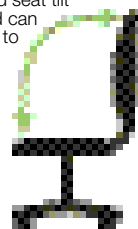

### 4 Free Floating Back

Back tilt adjusts with weight tension control (pressure from user's weight) for permanent back contact.

### 5 Synchronised Adjustment

Backrest and seat tilt together and can be locked in to position for comfort and support.

### 6 Adjustable Lumbar Support

Additional lower back support with internal, variable lumbar support feature.

### 7 Seat Depth Adjustment

Seat slides forward and backwards offering back support and relieving pressure from the knees as weight is spread across the seat's surface.

### 8 Seat Tilt Adjustment

Allows seat to be tilted for ideal sitting position.
