- Regulator - speed and acceleration are freely programmable.
- Spare batteries available, details on request.
- Option of separate battery charger or on-board charger (both supplied).

Load coupling at the touch of a button

Clamps onto load

Information

Benefits of using lithium batteries with Movexx powered tugs:

- Longer operating periods between charges.
- Low self-discharge rate - holds charge for longer when not in use.
- Low maintenance - no memory effect or re-energising required.
- Built-in Battery Management System protects against overcharging and deep discharge of the battery.
