

Safety & Security Lockout Equipment

A Lockout hasp

- For use with multiple padlocks to isolate one energy source when the primary lockout device does not have enough integral lockout points.
- Vinyl coated high tensile steel.

Code	Size mm	Price £ each
400574DX8	25	7.49
400575DX8	38	8.49

B Stainless steel lockout hasps

- Made from stainless steel.
- Available in powder coated black and yellow.
- Suitable for a maximum of 6 padlocks with a maximum shackle diameter up to 8mm.

Code	Type	Price £ each
426585DX8	Nickel plated	17.99
426586DX8	Black and yellow	17.99

C Non conductive nylon hasp

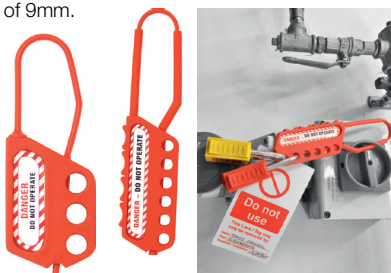

- 6 holes which can be used to extend the number of padlocks fitted to a lockout device.
- Shackle thickness 6mm.

Code	Price £ each
400582DX8	8.99

D Non conductive nylon lockout hasps

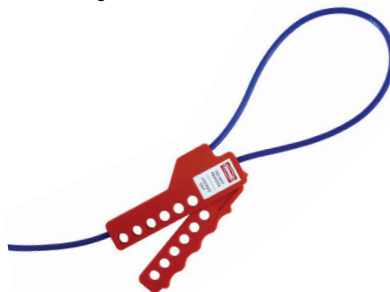

- Manufactured from Nylon.
- Tough and flexible.
- Hasps are completely non conductive.
- Accept padlocks with a shackle diameter of 9mm.

Code	Type	Price £ each
426604DX8	3 holes - 3mm thread	7.49
426646DX8	3 holes - 6mm thread	7.49
426647DX8	6 holes - 6mm thread	7.49

E Multi-purpose lockout cable

- Route the cable where necessary to prevent the equipment being activated.
- Ideal for locking out multiple energy sources with a single device.

Code	Type	Price £ each
400567DX8	2.5m coated steel cable	22.49
400568DX8	2.5m nylon cable	22.49

F Miniture circuit breaker lockout

- To fit most modern single and multiple pole miniature circuit breaker toggle from being turned on.

Code	Type	Price £ each
400592DX8	Pin out	8.99
400593DX8	Pin in	8.99
400594DX8	Tie bar	8.99
401438DX8	Pin out wide	8.99

G Universal tool free mini circuit breaker lockout

- Thumb-screw for easy "no tools" installation.
- Suitable for use on most ISO/DIN circuit breakers.
- Can be fitted vertically and horizontally, small enough to be used side by side on adjacent breakers.
- 2 locking options when using padlock, vertically or horizontally.
- Clamp size: 8 x 15mm.

Code	Price £ each
426598DX8	11.99

H Aluminium mini circuit breaker lockout

- Simply place over the breaker and tighten the internal grub screw.
- Once secure, fit padlock or appropriate hasp through the hole to prevent unauthorised removal.
- Maximum clamping size: 6mm.
- Padlocks available separately.

Code	Price £ each
426581DX8	7.49

I Large universal circuit breaker lockout

- Fitted using an internal grub screw.
- Suitable for larger circuit breakers and can be fitted to toggles. Clamp size: ≤35mm x 40mm.

Code	Price £ each
426664DX8	13.49
