O Commercial UV LED insect light trap

- A next generation commercial fly killer designed for energy efficiency and high performance.
- Powered by patented LED strips positioned behind the glue board, it achieves exceptional fly catch efficacy while using up to 67% less power compared to 45W fluorescent fly killers.
- A slimline design ensures discreet installation in restaurants, food factories, warehouses, and retail environments and tool-free servicing allows glue board replacement in under 30 seconds.
- 3-year LED lifespan, lower energy bills, and reduced environmental impact making it the professional choice for energy-efficient insect monitoring and commercial pest control.
