417787DX8	12 x 400g	95.99
417788DX8	18kg pail	231.00

I VICKERLUBE FGS Grease spray

- General purpose, fully synthetic PAO oil based, calcium complex thickened, food grade grease spray.
- For use on equipment and machinery in the food and clean industries.
- High temperature resistance, water resistance and corrosion protection.
- NSF H1 Registered for incidental food contact.
- NSF registration No. 160862.
- Manufactured to ISO 9001:2015.
- Meets the requirements of FDA 21 CFR 178.3570.

Code	Pack size	Price £ each
417909DX8	1 x 400ml	15.49
417806DX8	12 x 400ml	111.00

J VICKERLUBE FGS SIL Spray

- High performance, food grade, multipurpose, silicone lubricant spray.
- Light, adhesive, long life lubricant.
- High wear resistance, excellent water resistance and corrosion protection.
- High temperature wet film and silicone lubricant spray.
- Food grade and multipurpose.
- NSF H1 Registered for incidental food contact.
- NSF registration No. 160653.

Code	Pack size	Price £ each
417906DX8	1 x 400ml	15.99
417803DX8	12 x 400ml	122.00

K VICKERLUBE FG WD Spray

- Food grade, water displacing, penetrating lubricant spray.
- For use in food and clean industries.
- Excellent penetrant, can also be used to loosen corroded threads and help overcome galling.
- Light, adhesive, long life lubricant.
- High temperature resistance, water resistance and corrosion protection.
- NSF H1 Registered for incidental food contact.
- NSF registration No. 160685.

Code	Pack size	Price £ each
417907DX8	1 x 400ml	16.99
417804DX8	12 x 400ml	122.00

L VICKERLUBE FGS Chain spray - 400ml aerosol

- High temperature, self-cleaning, synthetic ester based food grade spray.
- Excellent load carrying and corrosion protection.
- High wear resistance, excellent water resistance and corrosion protection.
- NSF H1 Registered for incidental food contact.
- NSF registration No. 160655.

Code	Pack size	Price £ each
417908DX8	1 x 400ml	17.55
417805DX8	12 x 400ml	133.00

M VICKERLUBE Cleaner spray

- Multi-purpose non residue, solvent cleaner for workshops and the food and pharmaceutical industries.
- Safe to use on electrical components, machinery and equipment, motors and most plastics.
- K2 Registered for nonfood processing areas in and around food, beverage and pharmaceutical processing sites.
