

C Photoluminescent glow in the dark fire extinguisher identification signs

- Photoluminescent signs can provide an effective solution to poor visibility in the event of a fire or emergency. • P.S.P.A Class B material – brighter compared to the standard Class A product usually used in safety signs.
- Tested to DIN 67510 Part 1 – 4 for afterglow performance which exceeds international standard for flammability, smoke and toxicity.
- Once fully charged from light, will glow for over 10 hours.
- Visible even in complete darkness. • UV resistant – suitable for internal and external use. • Factory applied self-adhesive backing.
- Material: High intensity flexible vinyl (material code PHS) or 1.3mm rigid photoluminescent plastic board (material code PHO).
- Extended range available online.
