## A Plastic polymer shelving

**ANTI-BACTERIAL  
PROTECTION**

- Epoxy coated mild steel posts and frames.
- Removable polypropylene shelf panels for extra hygiene.
- Tested to confirm 99.9% bacterial count reductions of E.coli, Staphylococcus aureus, Salmonella choleraesuis, Klebsiella pneumonia and Pseudomonas aeruginosa.
- Protection lasts up to 5 times longer than nylon coating.
- Temperature resistant from -29°C to +88°C.
- Removable polypropylene shelf panels for extra hygiene.
- Complies with MoD 42. • 1625 mm high.
- 360 kg UDL per shelf up to 1220 mm in length.
- 280 kg UDL per shelf over 1220 mm in length.

## B Mobile aluminium shelving with polypropylene shelves

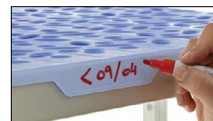

- Versatile mobile shelving which can be used in many applications, from kitchens to cold rooms (-30°C to +60°C).
- Can be used in wet or dry environments.
- No chrome to rust or chip away.
- Uprights are manufactured from tubular anodized aluminium 32 x 30mm.
- Shelves are manufactured from high density polypropylene.
- Removable shelves are machine washable up to +90°C and fit in both hood dishwashers and conveyor dishwashers.
- Overhanging shelves cover up the upper part of the aluminium bar, for an optimal fit.
- Shelves can be written on with white board erasable markers.
- Easy assembly – no tools required.
- Complete with 125mm diameter castors.
- Shelf capacity: 150kg UDL.
- Bay capacity: 200kg UDL.
- Static bay options available on line.

Up to  
**150KG**
