

A Low level single and double bumper impact protection barriers

- Flexible HDPE polymer with a foam diffuser, which deflects under impact and recovers with little or no damage.
- Ideal for use to protect pedestrian walkways, racking and machinery.
- Fully recyclable and non-toxic, they can be used in food production environments.
- All fixings provided making installation quick and easy.
- High visibility colours.
- Choice of lengths.
- Single barrier H x D: 300 x 370mm
- Double barrier H x D: 670 x 370mm
- PAS 13 impact rated, certification by TÜV Nord.
