E Waterlogic advance purification water dispenser

- Advanced point of use water system ideal to satisfy the hydration needs of even the busiest workplaces. • Certified by IAPMO and Water Quality Platinum Seal ensures high performance filtration. • Inbuilt Firewall UVC thoroughly purifies water through to the point of dispense, targeting and killing 99.99% of bacteria.
- BioCote protection reduces unpleasant odours, degradation and cross contamination by inhibiting microbial growth.
- Features ice bath cooling technology for instant cold water.
- Dispense area is suitable to accommodate large size bottles with a generous drip tray capacity.
- Programmable energy saving sleep mode reduces power consumption when not in use.
- 5" LED user friendly screen.
- Leak prevention systems for extra protection.
- H x W x D: 1269 x 399 x 519mm
- Please ensure you purchase 437332DZ1 installation rail.
