

G Water safety equipment

- Our range of water safety equipment consists in high quality, high visibility water rescue devices. • They are essential to any organisation located close to a body of water and will ensure compliance with health and safety regulations.

Lifebuoys

- A lifeline should be tied to the buoy to retrieve the survivor.
- Available in two sizes: 30" (750mm) with reflective tape, will support 2 or more people. 24" (600mm) with or without reflective tape, will support 1 person.
