

G Hearing loop induction kits

- Everything you need to create a high-quality fixed hearing loop system. • Suitable for room sizes up to 50m²; counter loop and portable loop up to 1.2m² coverage. • Amplifier includes a 3.5mm microphone input, a line level input and an 'outreach' socket.
- Metal compensation control helps improve intelligibility in rooms with high metal content.
- Adjustable mic, line level and 'outreach' controls. • Drive (level) control allows the amplifier's output stage to be set-up to suit the exact characteristics of the application. • State-of-the-art audio processor features an automatic gain control which compensates for poor microphone techniques and helps suppress loud noises, hisses and clicks. • Limit, peak, loop fault and power on indicators.
- Meet and exceed the requirements of BS7594 and EN60118-4 when correctly installed.

Domestic TV/Music lounge kit:

- Suitable for bedrooms, living rooms, TV lounges and studies. Amplifier includes a 3.5mm microphone input, a line level input, a digital 'TOS' link connector for connection to TV sets (TV set connection requires separately available TOS-link cable).
- APL outreach plate also supplied for connection to audio sources.
- Adjustable mic, line level, 'digital' and 'outreach' controls.

Portable hearing loop kit:

- Ideal for restricted person to person contact in small areas.
- Portable, lightweight design.
- Loop listening field of approx. 1.2m².
- Five years battery life: auto shut-off preserves battery life.
- Wall-mounting storage shelf, amplifier, charger, sticker, battery, integral microphone and durable carry case included

Counter loop kit:

- Suitable for a counter, desktop or ticket booth.

Small room/ceiling kit:

- Ideal for small room applications where equipment needs be mounted above suspended ceilings, etc.

Small/meeting room kit:

- Ideal for small meeting rooms, council chambers, doctors' surgeries, etc.
