

Handling & Lifting Pallet Trucks

A Slingsby 2500kg weigh scale pallet truck with optional printer

- Weighs palletised goods whilst in transit (e.g. from warehouse to lorry) for increased efficiency.
- Allows parts counting (multiple items on a pallet), and accumulation (total weights of several pallets).
- Manufactured from high quality steel with a tough powder coated finish.
- Features a high accuracy weighing scale, fitted with four load cells for reliable readings.
- 7 function 32mm red 6-digit LED display with a long-life rechargeable 6V/4Ah lithium battery.
- External battery charger included.
- +/- 500g accuracy.
- kg/lb setting.
- Optional built-in printer - allows users to record weight measurements.
- On Ø180mm polyurethane steering wheels with Ø70mm tandem nylon load rollers.
- Fork size: 540 x 1150mm, suitable for Euro, UK, US, CHEP & GKN pallet sizes.
- Fork height: 78 - 120mm.
- Load capacity: 2500kg.
- Weight 109kg.
