

E Automatic submersible clean water pumps

- Stainless steel motor case with Noryl® (high performance engineering plastic) base cover. • Corrosion resistant.
- Designed for clean cold water, min. particle size 5mm.
- Suitable for flooded cellars, hot tubs, sinks, cisterns and baths.
- Minimum water depth: 20mm. • Maximum running cycle (hr) - 3 in 6.
- 230Vac supply.

G Borehole water pump

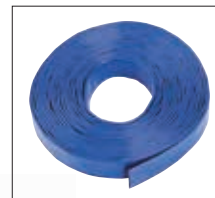

- Tough, stainless steel casing.
- Corrosion resistant.
- Ideal for wells, irrigation, boreholes etc.
- 9 stage pump with manual cut-out.
- 1000W, 230Vac motor.
- Max. head: 55M
- Outlet O/D: 38mm.
- Max. output: 93 ltr./min.
- Cable length: 22m.
- CE marked.

F Surface mounted water pump

- High impact thermoplastic housing with heavy duty induction motor and Noryl® (high performance engineering plastic) impeller, choke valve and venturi tube.
- For lifting water up to 9 metres.
- Suitable for drawing salt water.
- Outlet OD: 25mm.
- Maximum output: 900W.
- Maximum head: 42 metres.
- Motor: 900W.
- CE marked.

359559RN6	Layflat hose, 25mm x 10m	55.99

H Petrol water pump

- Petrol powered water pump with recoil starting.
- Suitable for on site use where mains power supply is unavailable.
- 4-stroke unleaded engine fitted to protective frame with high density rubber shock absorbers. • 50mm inlet/outlet. • 28m pumping head.
- High flow rate: max. 600 litre/min. • L477 x W385 x H417mm.
- Weight: 27kg. • Tank capacity: 3.6 litres. • Noise rating: 99dB(A).
- CE marked.
