F Diaphragm pumps

- Efficient, robust pumps for broad applications. • Suitable for water, seawater, contaminated/dirty water, light oils, diesel and kerosene. • Max. flow rate 1.1 ltrs/ stroke, 66 ltrs/min. • Ø25mm & Ø38mm inlet & outlet. • Vertical or horizontal fixing, mounting points: Ø6mm holes, 107.4mm centres.
- Suction lift / discharge head: 4/3m.

Code	Handle	Price € each
396942RN6	Plastic	132.00
396943RN6	Aluminium	208.00

B Universal lift pumps for 20/25L & 210L drums

- Black PP body. • 250ml/stroke, 14 ltrs./min.
- 20mm (¾") hose fitting (N.B. hose not included). • Includes 2 outlet options, riser extension tube, and 3 drum adapters. • For oils, water, diesel, kerosene, antifreeze, & mild chemicals / solvents.
- Viton seal is also suitable for petrol.

Pump with nitrile seal

Code	Seal	Colour	Price € each
413845RN6	Nitrile	Green	74.34
413846RN6	Viton	Red	68.04

C Heavy duty drum pump

- For use with lubrication oils, automatic transmission fluids and mild acids.
- Fits 20/25L and 210L steel or plastic drums.
- Polypropylene and polyethylene with nitrile seals. • Includes 2" BSP drum adapters, for Trisure and other common sizes.
- Telescopic riser for 125 to 210L drums.
- ½" bore hose adaptor included.

Code	Output	Price € each
317389RN6	250ml / stroke	135.00

E Plastic lever pumps

- For 210L drums.
- Polypropylene (PP) or Ryton® plastic bodies.
- Zinc plated or stainless steel pistons.
- Viton® or Teflon® seals.
- 500ml / stroke, 30 ltr. / min. (approx).
- Threaded 1½" / 2" BSP.
- 3 piece & telescopic riser tube for 210L drums, 914mm length.
