Double sided
cantilever racking

Single sided starter bay

Single
sided add
on bay

Up to
1250KG
per arm

Storage & Shelving

B Heavy duty bolted cantilever racking - up to 1250kg per arm

- Robust design with cross bracing between uprights. • Bolted arms for strength. • Curved bases to prevent tyre damage.
- All uprights 2000 mm high. • Starter bays easily extendible with add on bays. • Two unit widths and 2 different arm lengths available.
- Single sided starter bays consist of; 2 x single sided uprights & 6 x arms. Double sided starter bays consist of; 2 x double sided uprights & 12 x arms.
- Single sided add on bays consist of; 1 x single sided upright & 3 x arms. • Double sided add on bays consist of; 1 x double sided upright & 6 arms.
- Starter bay max. load is calculated based on using 3 levels and the bottom frame. • Each add on bay with 3 arms of 1250kg capacity per arm, increases the capacity of a single sided bay by 5000kg and a double sided bay by 10,000kg. • Each add on bay with 3 arms of 1000kg capacity per arm, increases the capacity of a single sided bay by 4000kg and a double sided bay by 8,000kg.
