

A Cold store shelving

- Economical shelving for use in cold rooms and where hygiene is a factor.
- Composite material is stronger and gives better corrosion resistance than aluminium.
- Composite material will not dent, warp, peel or rust. • Lifetime warranty against corrosion, even in salty environments.
- Shelf plates are removable for cleaning and are dishwasher safe.
- Four ventilated shelves per kit.
- Up to 1200kg capacity per bay.
- Choice of three widths and two depths gives a flexible layout.
