

E PVC strip curtain door kits

- Ideal for internal, pedestrian and light traffic applications.
- Ready-made door kits to suit standard size doorways.
- The plastic bullet rail with 'snap/snap off' technology promote ease of fitting, cleanliness and ensures pedestrian safety with no steel parts or sharp edges.
- Strip width x thickness - 200 x 2mm.
- 35-50% energy savings through temperature regulation.
- Door kit includes mounting rails and ready punch PVC strips (lock-in washers for additional safety on light duty only).
- Suits opening widths between 900mm - 2700mm.
- Suits opening heights between 2150mm - 3100mm

Light duty door kits

- Softer multi-ribbed PVC to suit small pedestrian openings.
- Ideal for schools and nurseries.

Code	To suit openings W x H mm	Price € per kit
393508RN6	900 x 2220	187.00
393509RN6	1200 x 2200	252.00
393510RN6	1500 x 2200	263.00
393511RN6	1800 x 2200	331.00

Heavy duty door kits

- Ideal for internal pedestrian traffic.

Code	To suit openings W x H mm	Price € per kit
393501RN6	900 x 2150	187.00
393502RN6	1200 x 2150	252.00
393503RN6	1500 x 2400	263.00
393504RN6	1800 x 2600	312.00
393505RN6	2100 x 2600	357.00
393506RN6	2400 x 2600	408.00
393507RN6	2700 x 3100	487.00

Mounting rail

F PVC made to measure strip curtain doors

- Track is included in the price - fit pre-drilled track to the doorway and hook on PVC strips on the track.

Internal PVC strip curtain doors

- Calculate the no. of m² required by multiplying the doorway/opening height by the width (this will give an approximate 50% strip overlap).

Code	Strip W x Thick mm	Type	Price € per m ²
393496RN6	200 x 2	Standard - Pedestrian	67.24
393497RN6	300 x 3	Standard - Light traffic	80.99
393499RN6	200 x 2	Cold store/Low temperature	75.59
393500RN6	300 x 3	Cold store/Low temperature	90.84

External PVC strip curtain doors

- Calculate the no. of m² required by multiplying the doorway/opening height by the width (this will give an approximate 100% strip overlap).
- 400 x 4mm for wide doors and 300 x 3mm for smaller doorways.

Code	Strip W x Thick mm	Type	Price € per m ²
393498RN6	400 x 4	Heavy duty traffic	112.00

Ribbed PVC strip curtain doors

- Enhanced seal maximises energy savings with less friction drag than standard PVC strip curtains.
- Calculate the no. of m² required by multiplying the doorway/opening height by the width (this will give an approximate 50% strip overlap).

Code	Strip W x Thick mm	Type	Price € per m ²
403765RN6	200 x 2	Standard - Pedestrian	73.44
403766RN6	300 x 3	Standard - Light traffic	89.39
403767RN6	400 x 4	Standard - Light traffic	109.00
