E Magnetic rubber fork covers

- Easily fixes securely to forks without needing any tools.
- Ideal for use when increase in friction is needed between load and forks. • Prevents the slippage of load.
- Protects load from accidental damage when picking up finished products. • Impact resistant and lightweight therefore not affecting fork capacity. • Rubber construction helps improve noise reduction.
- 80mm wide option is supplied with edge guard.
- When not in use can be stored on any flat metal surface.
