

Your Guide...

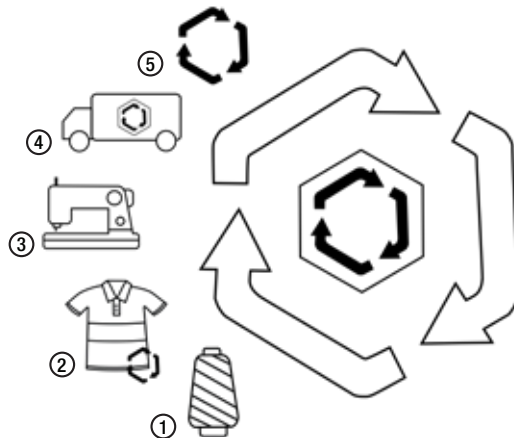

...to Recyclable PPE

A clothing revolution is changing the way garments are made and how wearers interact with brands. Envirowear garments have been designed to be recycled – using only mono-fibre design principles, each fabric, trim and accessory is carefully selected to ensure recyclability.

How it works...

Once garments reach the end of their useful lives, they are returned for recycling. The recycled polyester generated from this unique recycling process can be made into yarn and used in all kinds of polyester clothing and accessories. A QR code embedded within the garment can be scanned to identify the garment and inform the holder where it can be sent for recycling.

1. rPET Chip Used To Manufacture 100% Polyester Yarn 2
2. Designed To Be Recycled
3. Manufactured Through Audited Suppliers
4. Garments Returned At End Of Usable Life
5. Envirowear Garments Recycled Back Into Commercial Grade rPET Chip

A Hi vis recyclable polo shirt

- Manufactured from 100% recycled polyester.
- Hex patterned heat-seal retro-reflective tape for comfort and flexibility.
- 3 button plackets.
- 160gsm fabric weight.
- Tested for up to 50 washes.
- UV protective SPF40 EN 13758-1.
- Organce shirt is Railway-use certified.
- Conforms to EN ISO 13688:2013+A1:2021, EN ISO 20471:2013+A1:2016 Class 2.
- Sizes up to 5XL available online.
